VOLUME XLIX

MEN DRAFTED FROM OXFORD CO.

3. Jean Zastarache, 16 Oxford Ave., Ramford, Maine.
13. Carl Edward Shattuck, Roxbury, Maine.

103. Robert Schenk, Norway, Maine.
121. Wallace Arditie Wallace, 137 Penobscot St., Ramford, Maine.
130. Wendell Holmes Knox, Fryeburg, Maine.

This list consists of seventeen men, which is out of quota under the emergency call for ninety thousand men recently issued by Provost Marshall Crowder.

They are the first seventeen men finally classified in Class 1 who have passed the physical examination for general military service as indicated by their Order Number.

The address given in each case is the home address of the Registrant and indicates where the drafted man registered. These men are the first to be sent from Oxford County under the draft and deserve equal honors with men who have voluntarily enlisted inasmuch as the government has committed itself to the policy of conscription. In fact many of our drafted men have earnestly, but futilely sought to be voluntarily inducted into the military or naval service of the United States, only to be passed as fit for service under the draft. This however, is not to be construed as a criticism of the government, for any prudent man will admit that the best of the government for men is really more pressing than it was some months ago.

Now is the time for the people of the county to give these men a royal send off either by means of useful gifts or by their presence at the entrainments of the men on the morning of April 2nd at South Paris. They are entitled to some such patriotic demonstration and its moral effect now and hereafter would be immense.

Clothing Needed by Red Cross
The Southern Oxford County Chapter of the A. R. C. is conducting a three-day drive for clothing for France and Belgium. One-third of the total collection will go to those unfortunate in the north of France, close to the German lines, two-thirds will go to Belgians similarly situated. These people cannot buy clothing and are in a desperate straits. The local Red Cross will receive donations of second-hand clothing and shoes at the Armory from 10 until 12 and from 2 until 5 o'clock on Thursday, Friday and Saturday.

The village is being canvassed and all houses are being visited to see what they can do to help. Nothing is required for men, women, children and infants. No hats can be sent unless cloth or knitted hats. Babies' bonnets are desired. Shoes will be sent but should be free from mud, as otherwise they will deteriorate. Nothing containing rubber, such as suspenders, garters, etc., can be used. Nor are men's stiff hats or women's stiff hats, or fancy slippers wanted. No notes or messages can be sent with the donations. Only the neediest of the people and the inability of even those possessing means to buy necessities the Red Cross is anxious to include in the list empty bed-ticks, sheets, pillow cases, blankets and mufflers. Norway quota in pounds is large, but Norway's habit is never to disappoint.

Oxford Castle No. 2, K. G. E. will hold their annual Ladies Night on Wednesday evening, March 27th, at eight o'clock. There will be dancing, card playing, refreshments. SOUTH PARIS

Wounded Lieutenant Writes Home
A personal letter from First Lieut. Guy L. Sweet, Co. D, 103d U. S. Infantry in France was received Mar. 13, by Mrs. C. E. Brett of South Paris. Lieut. Sweet was reported slightly wounded four weeks ago, being among the first in Co. D to reach General Pershing's casualty list. His letter is given in full below.

France, Feb. 19.

Dear Aunt:

Will try and write a line today. I am in what is known as St. Paul Hospital. It is an old convent. I got a "trap on the beam" from the German artillery. One tried to stop a piece of shell or shrapnel with my head. I stopped it all right, but it stood me on end for a minute.

This is an evacuation hospital, and I leave tomorrow for a convalescent hospital. Feeling fine. Have one of my second lieutenants here. He has a "bang on his bean" also, and a hole through his right arm. He is trying to write to his wife left-handed. Some job.

Well, I am sure have seen some country, and some fireworks. Took my company into the front line and out, and did not lose a man. Only one got hit by a bursting shell, and he is coming out all right. Had a few accidents, but all will come out all right.

The lieutenant and myself are the first lieutenants in the National Guard, or the rest of the army, that we have heard of to get hit by the enemy—though I had rather some one else had the honor. We were both at the same party. One other lieutenant of mine was knocked down, but not hurt. My orderly had his foot hurt a little.

This country is a wreck. I have seen villages laid in ruins that looked like a stone heap. Orchard service was left and left, and everything accordingly.

I am to leave here soon, tomorrow or next day, for down the river.

1st Lieut, 103d Inf. A. E. F.

P. S.—Had two air raids last night. Had to carry the men into a bomb-proof cellar. Life is pleasant.

The high wind Friday forenoon wrecked the frame of the old wooden tank at the Grand Trunk station. Slight property damage was done to apple trees, the mud box on the platform and pipes.

Dr. Augustus D. Thomas, the state superintendent of public schools, was here Thursday to meet members of the several school boards in this vicinity to confer regarding the make-up of the superintendent of the districts.

Under the new arrangement all the territory of the county comes into some district or other and all under expert supervision. It goes into effect July 1st.

A birthday party was held at the home of Winfield S. Starbird, Monday evening in remembrance of his 71st anniversary. The oldest lady present was Mrs. Benj. Turner, who is 78 years of age. Light refreshments were served and a pleasant evening enjoyed by the eighteen neighbors in the party.

Officers at Morrisville, Vt. report that several bogus checks were passed there and would be pleased to meet the smooth chap who unloaded the worthless paper. According to reports and evidence gathered Wheeler left a blazed trail from Maine to Virginia, where he was captured and held for the Oxford County officers.

The program included two selections by the mandolin club; vocal solos by Eva Andrews, Evelyn Wright and Eugene West; a piano solo by Maxine Bennett. Paris High Service Flag

Touching, yet enthusiastic patriotic exercises were held at the Paris High School building Friday afternoon, when a service flag carrying 40 stars was presented to the school and unveiled.

Professor Arthur C. Soule, the principal of Paris High, presided over the program which opened with "Double O and S" sung by the school, followed by Emma West, who recited "Your Lad and My Lad." Evelyn Wright and Gladys Doran then sang "There's a Service Flag at Our House." Harry M. Shaw, president of the Alumni Association, was given the honor of presenting the flag. Mr. Shaw briefly expressed his appreciation of the loyalty of the 40 young men graduated from Paris High School who are now serving their country in the United States army. He especially emphasized the fact that athletics was proving to be a great source of benefit and help to the soldier boy in this critical age. After suggesting that it might be well for the senior class to make suggestions along the line of assistance which may be needed, to the next Alumni meeting to be held in the summer, Mr. Shaw unveiled the service flag and in behalf of Paris Alumni and with their compliments and best wishes, presented the flag to Paris high school, saying in all probability there would be more stars added thereto.

Alton C. Wheeler assisted in raising the flag amid hearty cheers.

Professor Soule in behalf of the school accepted the gift, saying he was proud of the members and of their loyalty and urged all to work here at home with the same spirit as the noble soldier boys, who are fighting in the trenches. "Ladies in Khaki," after which Doris Cole recited "Your Flag and My Flag." The school sang "Keep the Home Fires Burning," and Alton C. Wheeler, the speaker of the afternoon, took for his key note, "Constitution, emphasizing its great need in the length and breadth of this country. His address was full of patriotic fire and to the point. He paid a high tribute to the 40 soldier boys, represented by the stars and urged the boys and girls to do their best here at home, imparting his enthusiasm to all. A vocal duet, "So Long Mother," was then rendered by Doris Kerr and Lillian Judkins, after which all joined in "America." Rev. C. W. Rogers, pastor of the Congregational church, gave a splendid talk, emphasizing the need of keeping the home fires burning. He has two sons in the service and believes in holding out to the last. He also paid high tribute to Paris high school soldiers and pointed out the great need of personal work.

The exercises closed with the flag salute and "The Star Spangled Banner." Three more boys have entered the service since the flag was ordered and stars will be added for them.

NOT DUE TO SEX ALONE

Norway Women Have Learned The Cause of Many Mysterious Pains and Aches.

Many women have come to know that sex isn't the reason for all backaches, dizzy headaches and urinary disorders.

Men have these troubles, too, and often they come from kidney weakness. To live simply, eat sparingly, take better care of one's self and to use Doan's Kidney Pills, is bound to help bad kidneys get better. There is no other remedy so well-recommended by Norway people. Read this case:

Mrs. Myrtle Payne Hazen St. Norway, says: "A few years ago I was having pains across my back and kidneys. They annoyed me very much and on stooping or lifting, I felt them more. I found Doan's Kidney Pills very good for this trouble. As I used them, the pains gradually lessened and soon I as practically free from the trouble. Doan's Kidney Pills are surely worthy of recommendation."

He was unmarried and leaves two sisters, Mrs. Jasko Carter and Mrs. Charles Capen of this place, and a brother Sherman W. Merrill in Minot.

Step Lively! Corns Quit with "Gels-It"

The Great Corn-Loosener of the Age. Never Fails. Painless.

Watch my step? What's the use of going along "right side up" without "Gels-It"? The painless, off-like-a-ha-nana-peel corn remover. I tried other ways galore, until I was blue

Corns Simply Can't Stop us. We use "Gels-It" in the face and red in the toes. No more for me. Use "Gels-It". It never fails. LOCAL SIGHTS—VILLAGE SCENES

March 17, St. Patrick's Day, warm and fair and mercury up to 48 in the shade. I went west as far as where my boat house stood before the Mill Pond Rights were defined. Heaps of logs are piled on the bank, some big and fair to look on, while others are larger than tooth picks, some are crooked as corkscrews and filled with knots. Old Palmer has a right to thank his gods he is not here to save them!

Some of these logs are being dragged off the bank to the mill. There isn't water enough in the stream to float them. Fiddle's boys can't wait and will not allow the little water going to escape them, hence sawing and hauling off on sleds and stacking in the snow. That's the way and I'm glad to see it. Doing something worth while.

A silent policeman should be put at the iron drinking fountain to keep children from falling in and getting drowned. In the summer you can water your horse without unchecking, but now the animal must drop on its knees to quench its thirst or have a very long neck. The snow has piled higher than the rim of the trough. Who could have believed it! I didn't. I understand a similar condition exists at the Steep Falls fountain. Sure some snow has fallen this winter!

The saw-mill approach to Norway is something awful. Have you ever noticed it and taken in its appalling sublimity of slatiness? It's hard to imagine a well-kept and prosperous village is near at hand when you come to town that way. Did you ever think of it and remark about it? I have, and felt ashamed of the knocked-knees and dishevelled condition of the thing. It's been so for 20 years and is growing worse. Look over and you will agree with me. We have become so used to it as to become blinded. Look it over with the eye of a stranger and you will agree with me.

Maybe it will be necessary to shovel the snow off the bridges to keep them from being crushed the same as wise people have their roofs. The burden of snow is great and should a rain come, then what? I'll not say.

You look down on the guide-board and up to the wretchedly proportioned sign on Frank Hurd's blacksmith shop talking about heavy team wagons, etc. You can stab your toe on the Poo-Duck Square street sprinkler stand pipe and Jack Clark's house needs painting.

C. B. Cummings Sons Co.'s office on Bridge street needs a sign. It's not properly labelled and strangers might take it for a small synagogue or a W. C. T. U. rest house. The building next to it, well, I'll not say anything about it, it don't look right though, maybe it can't be made to look well anyhow! They own it, I don't.

Saunder's water-front is as though he tried to do something and hadn't succeeded and tied it together with strings to keep the children from falling in.

The printing office, well, that is an abomination when measured by an artistic eye—and why good looking walls should be so disfigured with loud letters is beyond me. If borders on insinuate depravity!

H. B. Foster Co.'s sign needs painting. I think I mentioned that before. So does Buster Brown's and there are others. While you are about it, the old post office sign should be taken in and one of more generous proportion displayed where W. Cordwell, Steve Hatch, Viv Hills and others meet daily and grumble over key-les locks and governmental extravagance.

I see no reason for Cubbie Starbird hauling the snow out of the street that comes from my buildings and charging the expense to the town. The street is passable and that's enough. If people don't like the mountain of snow opposite my door they can keep out and if the tenants object they can move out. I don't care. It's none of the town's business anyhow if the water comes into my car and floods the empty pork barrel into an obscure corner. What has Cubbie Starbird, Harry Lovejoy and his stenographer to do with it? Nothing.

HARKEN BACK ON THE PAST

Twenty-five Years Ago This Week Bare ground is beginning to be seen on the streets. The snow has gone off fast in the past week.

The following pupils at the Norway High School have been selected to take part in the junior exhibition graduation week: Kate Elliott, Jay Dinsmore, Edith Brooks, Bessie Towne, Ernest Rowe, Charles Craig, Fred Pike and Ed. Tyler.

Friday forenoon as Dr. and Mrs. O. N. Bradbury were riding down Main street near the Advertiser Office, the sleigh struck some obstacle or the bare ground and broke the harness. This frightened the horse and he ran up the sidewalk, quickly clearing himself from the sleigh and went to the stable. Mrs. Bradbury was left sitting in the sleigh uninjured, but the doctor was thrown out when the horse made the short turn and was found in an unconscious condition. By the aid of a friend, he was soon able to get into a sleigh and was carried home. He was badly shaken up, and the sleigh was somewhat damaged.

Judge C. F. Whitman is to deliver the memorial address at Lovell. He has been invited to deliver the address at Stonham, and if it can be arranged to have the addresses at different hours, will doubtless speak at both places.

J. Waldo Nash and A. L. Wyman have gone into partnership in the insurance business.

COMMON PEOPLE SAVE

All that we farmers heard all last summer was plant, plant and save. We did plant and now we hardly are allowed to use what we were so fortunate to raise successfully. The Common People are the ones who have always done the saving and they are the ones being urged to save now.

Do the wealthier people save as much proportionally? I have my serious doubts. We keep reading of the big banquets, and this usually, after they have eaten and drunk, that the churches have three meals that day. The churches have scarcely been allowed for their regular services, but has the pool rooms and club rooms closed on account of the scarcity of fuel?

Yes, we can get along without the movies, hundreds do, anyway and just as well off. A good book or magazine at home is much better, in my opinion, while we have meatless and wheatless and almost eatless days.

Do we hear anything of the smokeless and drinkless days? Are these necessities? I have done quite a lot of thinking about the various ways in which we are asked to "do our bit" and can say as economical as possible. In the winter I spin and knit for a family of five. In the summer I have a very large garden, raising all the vegetables we need. I do not wish to complain, but I believe I could teach our food administrators some real economy as practiced in our home every day. As a rule, we have about seven meatless days a week, and it has been so for years, and all sugarless days now.

LOVELL

The following letter received by Mrs. Bessie Stearns of Center Lovell seems to dispose of the stories that have been told in regard to the Red Cross selling goods sent them and using the money for other purposes.

United States Naval Radio School, Harvard University, Cambridge, Mass. Miss or Mrs. Bessie Stearns.

Dear friend: As I do not know whether you are married or single, I have addressed you as married or single. I have addressed you as a conservative person. Our department recently received a shipment of a thousand sweaters and I called yours out of them, therefore, you may feel assured that it is a good one and bound to give comfort and service.

I wish to express my appreciation to you for the labor of love you have performed and urge you to further efforts in supplying these things and the men for the war. The men in the service. Too much cannot be done for them I assure you. They are the cream of the land, coming from all lines of business professions, trades, and colleges to do their bit, not counting the costs to themselves. The situation is a perilous one, and a civilian life submitting to the wearing of a uniform that makes the great and the small equal in appearance, taking orders from some petty officer and having no mind than to obey implicitly no matter what the task.

One great good that is certain to come of this process of assembling men of every calibre into a vast unit, is the establishing of a closer bond of fellowship and understanding between them. Class and mass will certainly have a greater respect for each other as each strive for a common object, the preservation of our glorious country.

I do not think it would be out of place to give an indorsement to the splendid work of the Red Cross. Stories have been told of how goods received by them have been disposed of for money to men in the service or to outside sources. My own experience with them proves this is not the case. You did not ask for a letter, and I surely did not intend to write a dissertation on men in the service but merely to assure you that your sweat and blood has been appreciated and that you and God bless you and yours.

Sincerely, E. B. Weatherbee C. P. O., Officer of Dock Div. Lib.

An exchange says: At the home of H. P. Brown and his son, I. E. Brown, Norway, general farming has been carried on for 25 years. Their attractive place is pleasantly located near Norway Center, where considerable stock is kept, including sheep. A novel team helping to carry on the place is a bull and steer broken to do all kinds of work. Besides this combination they have four horses, including a span of heavy ones. At least 12 acres of ground will be cultivated this coming Spring. Both flint and sweet corn will be planted. Silage is considered essential and the fodder from the corn will be utilized in that way. As a by-product the ensilage from sweet corn is considered an important factor in growing corn for the factory and the Browns have decided to plant some this Spring. Oats, potatoes and beans will comprise other crops. Some of the flint corn will be ripened.

Government flower seeds are exhausted, that is, all we have have been distributed, so you will know why we can't fill further orders. The vegetable seeds have not yet arrived.

There will be a covered dish supper at the Congregational vestry, Wednesday evening, March 27, at 6:30, followed by an old fashioned social and knitting party. It is hoped that every member of the parish will be there and "do their bit."

Eugene C. Libby says: "The town clock will be set one hour ahead at 5 o'clock Saturday afternoon, March 30, which is a little before the schedule. At this time I wind the clock and it will save an extra trip."

Aaron Babb is able to ride out. He was up, street with Ransom Gould the other morning and says he is getting over his long sickness. Has been laid off since last October with excessive blood pressure and hasn't done a stroke of work. He has lost flesh, but is in good spirits and anxious to go to work. Mr. Babb is 69 years old.

Albert F. Clark of the A. F. Clark Drug Co. broke his leg and sprained an ankle while in a friendly scuffle at the Norway Commercial Club Wednesday evening. He was attended at home by a local surgeon, but it is feared hospital treatment may be necessary.

Before retiring on the last Saturday of this month the American householder will set his clock an hour ahead and then may go to sleep and forget entirely about daylight saving until the last Saturday of October. On that date he will reverse the process, turning back the hands of the clock an hour, and the next day the National again will run on "sun" time.

COAL FOR NEXT WINTER

The United States Fuel Administration have sent each of the chairmen of the local committees instructions in regard to the purchasing of coal for next winter. The following regulations are effective April 1, 1918.

Chairman Local Committees: The following regulations have been established by the United States Fuel Administration and are therefore expected to be enforced in each community by the local committee. These regulations are effective April 1st, 1918 and relate to the supply of coal for the coming season:

(a) Until further notice no domestic consumer of coal or coke shall purchase, receive or otherwise take possession of more coal or coke than is required for his actual and necessary requirements prior to March 31, 1918. If such consumer already has quantity on hand he shall receive only such additional amount as shall make up his actual and necessary requirements prior to that date.

(b) No person, firm, association or corporation, whether acting alone or in conjunction with others, shall directly or indirectly, provide any domestic consumer of coal or coke with more coal or coke before March 31, 1918, than is necessary, with the amount already on hand, to meet the actual and necessary requirements of such consumer prior to that date.

(c) On and after April 1, 1918, no person, firm, association or corporation shall sell or deliver coal to a domestic consumer who does not first furnish to the person selling or delivering such coal, a statement which the consumer declares in writing to be true, and which specifies:

(1) the amount of coal the consumer has on hand; (2) the amount of coal he has on order and the name of the person from whom ordered; (3) the amount of coal used by him or large lot lots since ending March 31, 1918; and (4) the amount of coal needed to meet his actual and necessary requirements prior to March 31, 1919; provided, however, that regulation may be modified by any State Fuel Administrator within his own State under such circumstances and conditions as he may deem proper.

(d) On and after April 1, 1918 and until further notice, no retail dealer shall be authorized by the State Fuel Administrator, deliver or cause to be delivered to any domestic consumer more than two-thirds of his normal annual requirements of anthracite coal until each domestic consumer who has placed his order with said dealer and is willing to receive delivery of the same has received two-thirds of his normal annual requirements for the year ending March 31, 1919; provided, however, that orders of six tons or less may be filled in full.

(e) Coal or coke in large lots shall not be delivered to a single domestic consumer or to a group of consumers, except with the permission of the local Fuel Administrator.

(f) Dealers shall file, with the local Fuel Administrator, on the first of each month a statement containing the names and addresses of consumers to whom deliveries have been made during the previous month and the quantity delivered at each.

Any dealer or consumer who violates the foregoing regulations will be subject to the penalties prescribed by the Lever Act.

Such further regulations will be issued

as may be necessary to enforce the essential features of the foregoing plan.

The purpose of the plan is to secure the broadest and most equitable distribution possible during the coming year. The Fuel Administration is assured by the representatives of the National Retail Coal Merchants' Association that the retail dealers throughout the country will lend their hearty co-operation in the performance of this patriotic service.

J. C. Hamlin, Fuel Administrator of Me. Note:—The United States Fuel Administration recommends and encourages the purchase and storage of coal and coke for necessary domestic requirements as early as possible in order, first, to insure the delivery of coal and coke for this purpose, and second, to assist the transportation companies by effecting delivery of as much coal and coke as possible before next winter.

The following general plan has been adopted governing retail distribution for 1918. Conditions differ so widely in different localities that no attempt is made to provide for every contingency, and the Fuel Administrator is authorized to make certain modifications as indicated in the regulations hereinafter set forth when necessary to meet local conditions.

Every consumer should be urged on or before April 1, 1918, to place with his regular dealer his order for his reasonable normal requirements for the year ending March 31, 1919. Such orders must be made in writing and state substantially the information called for in regulation (c) hereinafter set forth.

When an order has been entered, the dealer shall proceed to make deliveries thereon, until each consumer, willing to accept the same, has received two-thirds of his normal annual requirements, provided that orders of six tons or under may be filled in full. When all consumers who are willing to accept it, has received two-thirds of their normal annual requirements, the dealer may proceed to fill the balance of such orders up to normal annual requirements of each consumer.

(The provision for two-thirds delivery should apply only to anthracite. With respect to bituminous for domestic use the dealer may proceed to deliver the consumer's normal annual requirements.) If a consumer already has a quantity on hand he shall receive only such additional amount as shall make up his normal annual requirements.

The plan is, to ascertain the amount of coal the consumers need and make deliveries during the summer. If the consumer uses anthracite coal (hard coal) two-thirds of his order can be filled (if over 6 tons) and the final third after all customers have their two-thirds. Bituminous coal (soft coal) can be delivered for domestic use in full for the consumer's annual requirements.

Important War Chairmanship

G. Ralph Harriman has accepted the chairmanship of the Four Million Talkers and Workers of Norway and its now up to him to see that the good work goes on. When he asks you to assist don't say you can't, but put your shoulder to the wheel and lift.

If in doubt ask Harriman and do what he tells you. He has a good committee with him, but he needs all the assistance every loyal citizen can give.

We must win the war and lets go to it and do it.

These schools were grouped in three triangles. Triangle C was made up of Deering High, Leavitt Institute and Norway High. The affirmative team of each school debated at home, the negative team debated away from home. All events taking place on the same evening.

At Hebron the affirmative team of Hebron Academy, consisting of C. Manville Harmon, Raymond W. Graffam and Harris Isaacson, with Norman Millard as alternating, met the negative team from Rumford High School, consisting of Merle Niles, Hudson Brennick and Abbott Nile, with Harold Taylor, alternate. The judges were Prof. Paul Nixon of Bowdoin College, George C. Wing, Jr., of Bowdoin College, and Cornforth of Edward Little High School.

The Hebron negative team debated the Rumford affirmative team at Rumford the same evening. Rumford won over Hebron in both the debates between these schools.

The question for debate was, "Resolved, that the states should employ a system of compulsory industrial insurance. (Constitutionally conceded)."

A large number attended the debate at Leavitt. The affirmative team lost on the judges unanimous decision in favor of Deering High. Strong arguments were offered on both sides, which showed wide reading and an intelligent mental view of the question. Both teams were thoroughly coached but the opinion has been freely expressed that Norway had the big end of the argument in this direction, making a stronger impression with the audience.

On the affirmative for Norway were Elva Perry '18, Eleanor Brown '18 and Arthur J. Desotau, '19, with Chas. Grover '20 as alternate. The negative team from Deering High school being represented by Raymond Hennigar, Donald Reed and Carroll Benmark. The judges were Prof. W. H. Coleman and Prof. Robert McDonald of Bates College, and John Matthews of Hebron Academy. The timekeepers were Leon M. Longley and Maford M. Mann.

Each speaker was allowed ten minutes for presentation and five minutes for rebuttal. Principal Percival E. Hathaway presided.

Special mention of Carroll J. Enemark, Deering, '18 was made by the officials. He was selected last year as the best individual debater of the nine schools of the League.

Norway was unfortunate in being able to present one debator who has had previous experience with the League work. Arthur C. Bartlett of the negative this year was the affirmative last March. The total vote was 10-0.

The Pennesseswasse mandolin club played several selections during the evening and were well received. Norway's negative team, consisting of Roland L. McCormack '18, Bradlee Willis '18, Arthur C. Bartlett '18, with Willie Block '20 as alternate, debated with Leavitt Institute at Turner Center. In this contest the decision was given to Leavitt Institute.

Souvenir From France

Ernest Mattor, who is with Co. D. Somewhere in France, sent home to his mother a fancy silk handkerchief as a souvenir. In the center is a tinted picture of a young soldier and a young lady, and on either side is a view of a battle field. Over the scenes is Old Glory and the Eagle, bearing the words "The Farewell." Beneath the picture is the following verse: "When our colors lower o'er the land, we read of heroes brave, Our officers on land and sea o'er them we fairly love. The real defenders are forgot, the men who fight the gun. 'Tis they who shield the Stars and Stripes, God bless them every mother's son! He may be wealthy, college bred, perhaps a son of old, He volunteers to fight or die, he loves his native soil. No name or glory he his, though through him battles are won. Old England will never cease to wave while we have men to fire the gun!"

Hazel Bicknell went to Farmington, Monday, where she will resume her work in the millinery store.

Mrs. Geo. F. Flint has been ill with a bad cold at her home on Paris street, but is better now.

Mrs. L. M. Carroll accompanied her husband to Mechanic Falls to witness the horse race, Saturday. Others who went were Tom Thibodeau, Tessa Thibodeau and Orrington M. Cummings.

Mr. and Mrs. Lowell Cleveland were guests of relatives in Otisfield, Sunday. Nolan Jackson, little son of Mr. and Mrs. E. E. Jackson, is making a fine recovery from the measles.

G. W. Carter is the possessor of a fine heifer calf which he has learned to drink and which he proposes to raise.

H. L. Libby is able to go out on the phone and is seemingly very much improved in health.

Harry Rust W. R. C. No. 45 will hold their regular meeting this Thursday evening at 7.30. A full rehearsal should call out a large attendance.

The silver and silk belt won by Alfred Bolduc at Gardner, Mass., February 11, 1916, is on exhibition in Stone's window. This is a trophy for the light weight wrestling championship of New England within the 135 pound class. This engraving commemorates its history and a photo of Kid Bolduc. Kid Dionne of Lewiston is after this belt and a battle is soon to be waged here for its ownership.

Bob Seavey: "I can't find help and am getting discouraged; advertising is no good to me, but it helps you."

A large number attended the show "Oh Boy" at the Empire Theatre, Sunday. Among them were Lottie Lovejoy, Mary Dresser, Mollie Downing, Mr. and Mrs. Ed. Burnett, Ben Bancroft, Mary Fernald, Mr. and Mrs. True C. Morrill, Marion, Mrs. R. B. Ruby, Bethel, Louise Seavey, Mary Lee, Gule Blunt, Ethel, L. Lasselle, Gladys Spiller, Mrs. H. H. Hosmer, and Katie Ward. Some returned that evening while others remained until Sunday evening.

Rev. Mr. Davis of Lewiston, who formerly held a pastorate at South Paris, occupied the pulpit at the Norway Baptist church Sunday afternoon. The pastor, Rev. G. H. Newton had been ill several days with tonsillitis and unable to conduct the services.

Charles A. Frost: "I have on hand stored, housed and dried lumber enough to build a house. Two thousand of the best pine you ever saw. It's in the old shop upon the farm. I've always expected to build a house, but guess I shan't now."

A NERVOUS BREAKDOWN

Miss Kelly Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health.

Newark, N. J.—"For about three years I suffered from nervous breakdown and got so weak I could hardly stand, and had headaches every day. I tried everything I could think of and was under a physician's care for two years. A girlfriend had used Lydia E. Pinkham's Vegetable Compound and she told me about it. From the first day I took it began to feel better and now I am well and able to do most any kind of work. I have been recommending the Compound ever since and give you my permission to publish this letter."—Miss FLO KELLY 476 So. 14th St., Newark, N. J.

The reason this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, was so successful in Miss Kelly's case was because it went to the root of her trouble, restored her to a normal healthy condition and as a result her nervousness disappeared.

Order Monuments Now

War conditions have advanced prices on all monuments, tablets and markers from 20 to 30%. The labor problem at all quarries is such that I can take no orders for designs with any certainty of delivery before Memorial Day. It will be impossible to furnish Italian marble or Scottish granite except from my present stock. There is a shortage coming. I have on hand a large variety of desirable monuments purchased before the advance and a good unfinished stock including marble and granite of several grades. These can be placed early at reasonable prices as I opened my shop March 1, where I would be pleased to show goods and explain the situation.

Letters From Lawrence Briggs

Extracts from letters recently received by Mr. and Mrs. Lewis Briggs of Harrison, whose son, Lawrence, is at the front somewhere in France. The letters were dated Feb. 3, 14 and 17. He writes he was sleeping about 8 feet under ground. A bomb proof cellar. Said he had seen a good many ruined cities and at the time of writing he was living in a part of the country where wasn't a single thing on top of the earth that hadn't been hit by a cannon ball.

Under Feb. 13 he writes, they are at the front. He has seen a good many air battles and that the Germans were shooting shells into the town; he was in two days before he could hear the roar of the German guns and hear the shells going over his head in a per cent and five miles away. The place he was in when he wrote was held by the Germans when the boys landed in France.

There were 11,000 Germans taken prisoners in that vicinity by the French in 45 minutes. Short time ago. There are places around there where you could walk for hours and not come to the top of the earth, the Germans made these places.

Eugene McKay of Portland was an over Sunday guest of his grandparents, Mr. and Mrs. Edwin Cobb. He returned to Portland Monday morning.

Abigail Adams' Price List, 1776. We think at the present time things are pretty high, but a paper was found giving the prices of things in Abigail Adams times in 1776: Meat per lb., \$1 to \$2; corn, per bushel, \$25; rye, per bushel, \$30; potatoes, per bu., \$10; apples, per gal., \$12; flour, per cwt., \$5; cider, per barrel, \$40; cheese, per lb., \$2; butter, per lb., \$3; sugar, per lb., \$3.

In 1799 sugar rose to \$4.00 per lb. and tea the same. In 1780 butter sold for \$12.00 per lb. and tea for \$40.00.

Such were the prices in Revolutionary times when we were only trying to carry on a war and feed ourselves at the same time. Now, however, our task is greater for we must not only fight and feed ourselves at the same time, but we must furnish most of the food for the allies if we are to win this war, yet prices today are considerably lower than those which Abigail Adams paid in 1776.

ALBANY

A. G. Bean and wife are both better. Marion Bean has gone home.

W. W. Moulton of Berlin, N. H., and Eli Stearns of Bethel have been out and packed A. G. Bean's and Ora Saunders' apples. George Cummings and Bob Stearns hauled the apples to Bethel Tuesday. Apples are very low. The only one to pay \$2.00 per barrel for No. 1 and do not want to take any No. 2 at any rate.

The snow went fast Tuesday, March 19.

Chimney Fire

The Deacon Lovejoy buildings came very near getting burned up. The chimney burned out and the stove funnel was red hot. Anna Cummings was the first one that saw the fire. She went to the nearest neighbor, Abel Andrews', across the road. D. A. Cummings got up as soon as he could and by the time he got to the stove, the wood work all around the stove funnel was all a blaze. If he had been five minutes later, the whole set of buildings, house, shed, stable and barn, would have been destroyed by the fire.

Let this be a warning to every man who has not burned out his chimney. We hope our new fire ward will look after the chimneys and see that every chimney is burned out.

Harry McNally's family are moving back into their own house. Archie Cole and Tyler Cole will remain in the Cole house.

Thousands of children have worms and their parents don't know what the trouble is. Symptoms of worms are: Drained stomach, swollen upper lip, sour stomach, offensive breath and belly with occasional gripings and pains about the navel; pale face of leaden tint, eyes heavy and dull, twitching and itching of the nose, itching of the rectum, short dry cough, grinding of the teeth, little red points sticking out on the tongue, restlessness during sleep, slow fever.

Always keep Dr. True's Elixir on hand for such cases. It is promptly effective and the nice thing about it is that children like to take it.

Miss H. W. Roberts of 502 Ashmun Street, Flint, Mich., wrote to us: "Have used the Elixir and as far as I know my little girl is cured of worms." She wrote again later saying, "Baby is fine and I think it was your Elixir that cured her."

Dr. True's Elixir, the Family Laxative and Worm Expeller, has been on the market more than 20 years and more and more people are using it all the time to expel worms, or to tone up the stomach and restore natural action of Dr. J. F. True & Co. like to take it. Write us. Auburn, Maine 44-13

22 Million Families in the United States

4 CUPS OF WHEAT FLOUR TO THE POUND

If each family used 4 cups of flour less per week, the saving would be 22 million pounds or 112,244 barrels every week.

The greatest help housekeepers can give to win the war is to make this saving and it can be done by using this recipe in place of white flour bread.

Corn Meal Biscuits

$\frac{3}{4}$ cup scalded milk
1 cup corn meal
2 tablespoons shortening
 $\frac{3}{4}$ teaspoon salt
1 cup white flour
4 teaspoons Royal Baking Powder

Save $\frac{1}{4}$ cup of the measured flour for board. Pour milk over corn meal, add shortening and salt. When cold, add sifted flour and baking powder. Roll out lightly on floured board. Cut with biscuit cutter and bake in greased pan fifteen to twenty minutes.

Our new Red, White and Blue booklet, "Best War Time Recipes," containing many other recipes for making delicious and wholesome wheat saving foods, mailed free—address
